Report: US to release 6,000 federal prisoners

(Al Jazeera) The U.S. Justice Department is set to release about 6,000 prisoners early in the largest one-time release of federal inmates. The release, scheduled for between Oct. 30 and Nov. 2, is an effort to reduce overcrowding and provide relief to drug offenders who received harsh sentences over the past three decades. The inmates will be set free by the department's Bureau of Prisons. The early release follows action by the U.S. Sentencing Commission, an independent agency that sets sentencing policies for federal crimes. The panel reduced the potential punishment for drug offenders last year and made the change retroactive. The commission's action is separate from an effort by President Barack Obama to grant clemency to some nonviolent drug offenders, an initiative that has resulted in the early release of 89 inmates. The sentencing panel estimated that its change in guidelines could result in 46,000 of the roughly 100,000 drug offenders in federal prison qualifying for early release.

International News – Significant Events

Russian air strikes in Syria cause 'civilian deaths'

(Al Jazeera) Civilian deaths are being reported from apparent air strikes by Russian fighter jets in the Syrian province of Hama and in areas bordering the Idlib province. Russian forces carried out the air strikes on Wednesday morning, in addition to targeting anti-government armed groups with surface-to-surface missiles, said the UK-based Syrian Observatory for Human Rights. A video of the purported raids uploaded to YouTube by activists said at least four people were killed and dozens injured, and that the death toll was expected to rise. Al Jazeera could not independently verify the reports of the air strikes. Meanwhile, Syrian army forces have launched a ground operation in the country's west, reports say. The offensive is targeting Khan Shaykhun, a town in Idlib strategically situated on a rebel-controlled route that connects Aleppo and Damascus. The developments come at a time when Syrian fighters are targeting government forces and pro-regime units in Hama with Grad missiles, the Syrian Observatory said in a statement.

Saudi-led coalition accused of war crimes in Yemen

(Al Jazeera) Amnesty International on Wednesday accused the Saudi-led coalition fighting in Yemen of carrying out unlawful air strikes, some of which amount to war crimes, and called for the suspension of transfers of arms transfers to coalition members. Amnesty said that it had examined 13 deadly air strikes by the coalition that had killed about 100 civilians, including 59 children in Yemen. The report also documents the use of cluster bombs. "This report uncovers yet more evidence of unlawful air strikes carried out by the Saudi Arabia-led coalition, some of which amount to war crimes. It demonstrates in harrowing detail how crucial it is to stop arms being used to commit serious violations of this kind," said Amnesty's Donatella Rovera, who headed the group's fact-finding mission to Yemen. "The USA and other states exporting weapons to any of the parties to the Yemen conflict have a responsibility to ensure that the arms transfers they authorize are not facilitating serious violations of international humanitarian law." Bahrain, Egypt, Jordan, Kuwait, Morocco, Qatar, Sudan and the United Arab Emirates are participating in the coalition.

WEATHER

WEATHER SYNOPSIS BY REGION:

NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:

Eureka Weather:

Dry and seasonably warm weather will persist in the interior through Friday as high pressure aloft remains over the region. Low clouds will likely persist near the immediate coast for the next day or two with some sunshine by each afternoon.

Medford Weather:

High clouds are streaming across the region this morning along with low clouds and fog along the coast and over the coastal waters.

Reno Weather:

High pressure over the region will lead to warm and dry conditions the rest of the week. Afternoon highs may approach record levels Friday and Saturday. Dry conditions persist into early next week with clouds increasing by mid-week.

San Francisco Weather:

Dry weather conditions will persist over the region along with a gradual warming trend through late week as high pressure builds over the state. Temperatures will hold steady through the weekend as the ridge flattens and zonal flow develops aloft.

WEATHER

WEATHER SYNOPSIS BY REGION:

CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY:

Sacramento Weather:

High pressure dominates the region this week with temperatures returning to above average.

Hanford Weather:

An upper level ridge of high pressure will build over central California during the next few days and bring dry weather with a day to day warming trend through Saturday.

SOUTHERN CALIFORNIA:

Los Angeles Weather:

A building ridge of high pressure will bring a warming trend through the end of the week. Triple digit heat is possible for inland areas on Friday and Saturday when light offshore winds are expected. Cooler weather is likely early next week along with a slight chance of showers as low pressure approaches from the south.

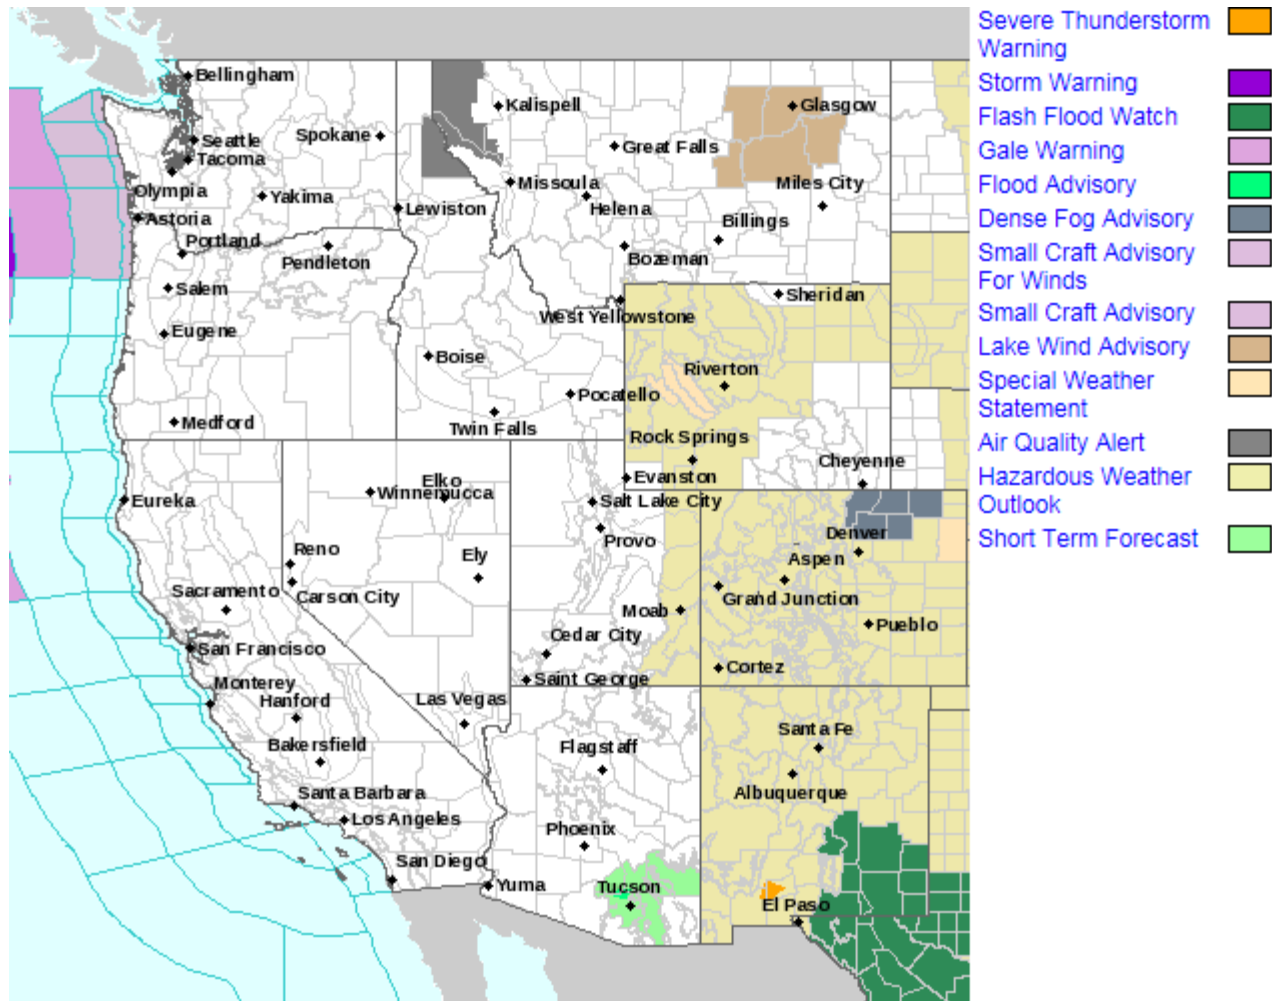

Extreme Southwestern California including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties:

High pressure aloft will build the rest of this week and bring a warming trend and fair weather. Patchy night and morning low clouds will occur through Thursday in coastal areas with some fog possible in the interior valleys this morning. It will become quite hot in most areas from Friday through Sunday with a cooling trend beginning early next week as a low pressure system approaches our region from the south. Some showers or thunderstorms are possible by Tuesday or Wednesday of next week.

Southeast California Weather:

Decreasing moisture and cloudiness is anticipated to start today as a low pressure system begins moving east of the area. Expect mainly clear skies from Thursday onward into early next week with temperatures climbing back to above normal values by late in the week.
